EDUCATION CENTER

### [Register now to receive a 40% off discount code!](#)

Re-designed from the ground up, the new Veeam® Availability Suite™ v10: Configuration and Management training course has been fully updated to include the powerful features of the newest release of Veeam Availability Suite v10 and is available as a virtual learning experience.

This three-day, technical deep dive delivers the skills needed to install, configure, and manage Veeam Availability Suite, while providing the ability to keep pace with your growing and evolving technical landscape wherever your data resides. Through in-depth theory and extensive hands-on labs, VMCE Training leaves you more confident, more credible, and more effective for your organization.

### Who should attend VMCE training?

This course is recommended for anyone responsible for protecting data with Veeam Availability Suite and is a required prerequisite for the VMCE exam. Working knowledge of virtualization with an understanding of storage and/or network principles is suggested.
