

Discover the Flexible Way to Enjoy Official IBM Training and Education Courses

As an authorised IBM Global Training Provider, we offer a comprehensive range of training courses around IBM to suit your learning style:

Instructor Led Training (ILT)	Instructor Led Online (ILO)	eLearning
<p>Description: Courses are available on a wide range of subjects lasting from one to five days.</p>	<p>Description: ILO courses allow participation from almost any internet-enabled location, saving you time and travel costs. You are able to have real-time inter-action with your instructor, high-quality content, materials and access to real labs.</p>	<p>Description: Providing the same content as instructor-led courses, eLearning courses give the ultimate flexibility to train when and where you want. Course instructors are “virtual” through recorded lectures, demonstrations and exercises. Lab practice is in a real lab. In addition, you can access course forums with expert feedback from instructors and fellow students.</p>
<p>Price: From €300</p>	<p>Price: 20% discount compared to ILT classes.</p>	<p>Price: 20% discount compared to ILT classes.</p>
