

- **VMware vRealize Automation: Install, Configure, Manage [V8.3]**

During this five-day course, you focus on installing, configuring, and managing VMware vRealize® Automation™. You learn about how vRealize Automation can be used to automate the delivery of virtual machines, applications, and personalized IT services across different data centers and hybrid cloud environments. This course makes heavy use of hands-on labs. Students can run 39 labs during the 5-day course.

Product Alignment

- VMware vSphere® 7.01
- VMware vRealize Automation 8.3
- VMware vRealize Orchestrator 8.3
- VMware vRealize® Lifecycle Manager™ 8.3
- VMware NSX-TTM Data Center 3.1

- **VMware vRealize Network Insight: Install, Configure, Manage [V6.0]**

This two-day, hands-on course gives you the skills to deploy and use VMware vRealize® Network Insight™ to ensure an optimized, highly available and secure infrastructure for your applications. You will learn the features, components, architecture and benefits of vRealize Network Insight and how to use it to simplify daily operation and troubleshooting tasks.

Product Alignment

- vRealize Network Insight 6.0

- **VMware HCX: Management and Operations**

This five-day course provides hands-on training to equip students with a range of skills: from performing routine VMware vSphere® 7 administrative tasks to complex vSphere operations and configurations. Through lab-based activities, students are immersed in real-life situations faced by VMBeans, a fictitious company. These situations expose students to real-life scenarios faced by companies that are building and scaling their virtual infrastructure.

This course uses scenario-based lab exercises and does not provide guided step-by-step instructions. To complete the scenario-based lab exercises, you are required to analyze the task, research, and deduce the required solution. References and suggested documentation are provided.

Approximately 90% of the class is application-focused and taught through labs. The course aligns fully with the VMware Certified Advanced Professional – Data Center Virtualization Deploy exam objectives.
